

FOR IMMEDIATE RELEASE

Visiplex introduces the TS2800-CA Wireless Time Synchronization system that is configured specifically for the needs of the Canadian market.

VERNON HILLS, IL – May 30, 2007 – Visiplex Time Systems, Inc., a leader in wireless synchronized time systems, introduced today a new member of its TimeSyncPro product line that was designed specifically for the Canadian market. The system is designed to be used within medical facilities, campuses, manufacturing plants and other commercial applications, which provides all the required CSA and Industry Canada certifications.

About the TS2800-CA System

The TS2800-CA System includes a GPS receiver, a TS2800 encoder with a CSA approved power adapter, a Industry Canada approved (Motorola CM200) 40Watts transmitter ,a rack mount cabinet and a Magnetic Mount antenna. The system is designed to provide up to 40Watts of RF power coverage for large facility and campus environment applications. If more power is needed, an optional Industry Canada approved Power Amplifier can be added to provide additional RF power up to 350Watts.

All the TimeSyncPro series analog clocks, digital clocks and other accessories that are shipped with a TS2800-CA system, includes CSA approved AC adapters.

Availability

The TS2800-CA system is available for order now. **For more information about the TS2800-CA and the TimeSync Series, please call 1-877-918-8463.**
